Summary

Full-Stack Developer | Software Developer building scalable, responsive, and engaging web applications. Pursuing a B.E. in Computer Engineering at Indira College of Engineering & Management (GPA: 8.43) and currently a Intern Software Deve at Gryphon Academy Pvt Ltd ,working across front-end and back-end technologies to deliver end-to-end solutions.

Experience

Gryphon Academy Pvt Ltd   September 2025 - Present
Intern Software Developer   Banner , Pune
🔗 https://www.gryphonacademy.co.in/

- Developed internal and client-based web applications using **Node.js**, **Spring Boot**, **React.js**, **Next.js**, and **PostgreSQL** for end-to-end development.
- Built and integrated **RESTful APIs** using **Prisma and Hibernate ORM** for smooth database operations and improved performance.
- Collaborated with the team to deliver **end-to-end functionality** and optimize data flow.
- Participated in **Agile sprints**, stand-ups, and code reviews to ensure high-quality project delivery.

Key Projects:

- **Leaving Certificate Automation System:**
  Developed a **full-stack web application** to automate the process of applying for and approving college leaving certificates. Students can **register**, fill out a digital **leaving certificate form**, and track approval status in real time. The request is automatically routed to respective **departments for verification**, and once all approvals are received, the **registrar generates the final certificate** through the system.
  Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM , AWS

- **College Website Revamp (CMS) – In Progress**
  Currently developing a **full-stack web application** to revamp the college website with an integrated **Content Management System (CMS)**. The system enables admins to manage content dynamically, update pages without code changes, and control user access through **role-based permissions**. Focused on building scalable APIs, improved UI responsiveness, and seamless content publishing workflows.
  Tech Stack: Next.js, Spring Boot, PostgreSQL

Education

Indira College of Engineering and Management   Aug 2022 – May 2026
Computer Science   B.E. (Bachelor of Engineering)
8.43

Skills

ReactJs	NextJs	Tailwind CSS	HTML5	CSS3
SpringBoot	NodeJs	ExpressJs	Restful API's	Deployment
ORM (Prisma / Hibernate)	MySQL & Oracle	PostgresSQL	MongoDB	FireBase
AWS	Git & GitHub	PostMan	Vs Code	IntelliJ IDEA
Maven	JAVA	C & C++	Python	Javascript

Languages

English	Hindi	Marathi

Projects	**MovieHub**

MovieHub

🔗 https://movie-app-navy-five.vercel.app/

Tech Stack : React , TMDB API , Redex toolkit , TailwindCss

MovieHub is a dynamic React-based web application that allows users to browse, search, and discover movies across various genres. The app fetches real-time data from an external movie API (e.g.,TMDb), displaying movie posters, ratings, synopses, trailers, and more in an elegant, responsive UI. Key features include a powerful search function, filtering by genre or rating, user authentication for saving favorite movies, and modern UI components built with Tailwind CSS or Material UI. This project demonstrates proficiency in React hooks, API integration, state management using Redux & Context API , routing with React Router, and responsive design principles.

Quiz Application

🔗 https://quiz-frontend-react-zeta.vercel.app/

Tech Stack: React.js, Spring Boot, PostgreSQL

Developed a **full-stack web application** with separate **admin** and **student** roles for conducting online quizzes. Students can register, attempt quizzes with a **timer**, and view results instantly after submission. The **admin panel** allows creating, updating, and managing quizzes, questions, and users with complete **CRUD functionality**. Implemented **JWT-based authentication** for secure access and **role-based authorization** across modules.

ExoApe Global – Digital Design Studio

🔗 https://exo-ape-lilac.vercel.app/

Tech Stack: React.js, Locomotive Scroll, Framer Motion

Built a **high-end, responsive web experience** for a fictional digital design agency that partners with global brands to create exceptional spaces and digital experiences. Designed a modern, **interactive user interface** with smooth transitions, parallax effects, and motion-based interactions inspired by leading creative studios. Focused on delivering a **premium visual experience** combining aesthetics and performance.

Certifications

Java , C & C++ , Python   **July 2024**
Disha Computer Institute
